III. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW: Primary Route(s) of Entry: Eyes, Skin, Inhalation, Ingestion

POTENTIAL HEALTH EFFECTS: Inhalation of dust may be harmful. Direct contact causes slight eye irritation. Prolonged or repeated contact may cause mild skin irritation. Ingestion of large amount may cause gastrointestinal disorder, nausea, vomiting and/or diarrhea. Prolonged or repeated overexposure to the active ingredient in this material could cause kidney, liver, and blood effects, thyroid damage, adrenal effects.

EYE: Causes eye irritation.

SKIN: May cause skin irritation.
INHALATION: Overexposure to dusts may cause mucous membrane and upper respiratory irritation and possible lung changes.

INGESTION: Ingestion of large quantities may cause gastrointestinal discomfort, vomiting, weakness or other medically related problems.

MEDICAL CONDITIONS AGGRAVATED: Skin sensitization in susceptible individuals.

POTENTIAL ENVIRONMENTAL HAZARDS: This product is toxic to fish and highly toxic to other aquatic organisms, including oysters and shrimp. Drift or runoff from treated turf may adversely affect aquatic organisms in adjacent aquatic sites. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

IV. FIRST AID MEASURES

EYES: Flush with large amounts of water. Eyelids should be held away from the eyeball to ensure thorough rinsing. Get medical attention if irritation persists.

SKIN: Remove and wash contaminated clothing thoroughly. Wash affected area thoroughly with soap and water. Get medical attention if irritation persists. Do not take clothing home to be laundered.

INHALATION: If symptoms develop, remove person from source of exposure to fresh air. If respiratory symptoms persist, get medical attention.

INGESTION: If large amount is ingested, give 2 – 3 glasses of water. Do not give anything by mouth to an unconscious person. Get medical attention.

NOTES TO MEDICAL DOCTOR: Treatment based on the sound judgement of the physician and the individual reactions of the patient.

V. FIRE FIGHTING MEASURES

Flash Point (Method Used): Not Applicable
Lower Explosion Limits: No Data
Upper Explosion Limits: No Data
NFPA/HMIS Rating: Health: 2  Fire: 1  Reactivity: 0
EXTINGUISHING MEDIA: x Foam  Alcohol Foam  x Dry Chemical
x Water Spray  Other  x CO₂

EXPLOSION HAZARDS: Dusts may form explosive mixtures with air.

FIRE FIGHTING PROCEDURES: Wear NIOSH approved self-contained, positive pressure breathing apparatus. Do not breathe fumes. Remove from area of fire at first opportunity. Prevent water run-off from entering drains, sewers, or water sources. If water enters a drainage system, advise the authorities downstream. Fertilizer will become slippery when wet. Guard against falls. Decontaminate emergency personnel with soap and water before leaving the fire area. Avoid breathing dusts, vapors and fumes from burning materials.

HAZARDOUS COMBUSTION PRODUCTS: If heated to decomposition, will give off toxic fumes of ammonia and formaldehyde. Under fire conditions, urea may decompose to cyanuric acid, biuret hydrogen cyanide and ammonia. Ammonium carbamate may also be formed.

VI. ACCIDENTAL RELEASE MEASURES

RELEASE NOTES: If material is spilled and dry, sweep or shovel into a container for reuse per label instructions or disposal. If liquid, contain spill and absorb with inert material and place in container for disposal. Prevent from entering drains, sewers or water sources. Avoid contact with eyes, skin and clothing.

VII. HANDLING AND STORAGE

GENERAL PROCEDURES: Store this product only in its original container in a dry, cool, secure storage area. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Keep away from drains, sewers, and water sources. Wash thoroughly with soap and water after handling.

OTHER PRECAUTIONS: Keep away from fire, sparks, or other ignition sources

VIII. EXPOSURE CONTROLS/PERSOAL PROTECTION

ENGINEERING CONTROLS: Local exhaust to reduce all dusts.

PERSONAL PROTECTION EQUIPMENT:
EYES AND FACE: Goggles or safety glasses
RESPIRATORY: Use NIOSH approved respirator in confined areas.
GLOVES: Impervious gloves
PROTECTIVE CLOTHING: Long sleeved shirt and long pants; shoes and socks
WORK HYGIENIC PRACTICES: After using product, remove clothing and launder separate before reuse. Promptly and thoroughly wash hands and exposed skin with soap and water. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
COMMENTS: Facilities storing or utilizing this material should be equipped with an eyewash facility and safety shower.
